Declining coverage for dependents

If you are declining enrollment for your dependents (including your spouse) because of other health insurance or group health plan coverage, you may be able to enroll your dependents in this plan if your dependents lose eligibility for that other coverage (or if the employer stops contributing towards you or your dependents' other coverage). However, you must request enrollment within 30 days after your dependents' other coverage ends (or after the employer stops contributing toward the other coverage). In addition, if you have a new dependent as a result of marriage, birth, adoption or placement for adoption, you may be able to enroll your dependents. However, you must request enrollment within 30 days after the marriage, birth, adoption or placement for adoption. To request special enrollment or obtain more information, contact your agency's benefits coordinator.
